

- Heritage walk in Devarayanadurga State Forest
- Day with Butterflies, Birds, Reptiles – lifecycle journey
- Walk on the banks of tanks– migratory birds
- Wilderness in Tumkur – visit to wild habitats
- Explore and experience nature – Camping

**Anveshane** is aimed to create meaningful outdoor experiences which stimulate and motivate the participants to learn through exploration and experiences. Participants will be exposed to natural habitations, areas of rich biodiversity, human settlements, agricultural fields, ex-situ conservation sites, parks and interpretation centers to understand the linkages between nature and human life. Socio economic and environmental issues will be interwoven in the content of program so that the participants will get the holistic view of issues related to development and conservation.

# Avani Academy For Nature

Explore....Experience....Educate

Let's scribe a better future for our earth

## About Us...

Avani Academy for Nature is engaged in developing programs and materials to increase awareness and concern, leading to action, regarding the environment and sustainable development. Academy came in existence in the year 2017, as an implementing agency of larger group, Wildlife Aware Nature Club Tumkur dedicated to cause of wildlife and conservation since 1990. Academy caters to conservation needs and working with a bandwidth of stakeholders from children to policy makers. It has designed, developed and implemented innovative programs to cater the needs of different target groups. Outdoor education is one such approach towards reaching students teachers and other interested groups to make conservation education more interesting and effective.

### Core purpose

Purpose is to create platforms for collaborative learning and to promote sustainable practices, help education institutes to bridge theoretical and practical knowledge, encourage youths and community to participate in conservation movement
